

NOTHING GAINED BY SLURS

DR. PARKHURST TALKS ON THE
PRESENT CAMPAIGN.

He Gives Out a Statement Concerning His
Position—Municipal Politics Tends to
Lower the Tone of the Administration—
An Eloquent Object Lesson.

New York, Oct. 11.—Dr. C. H. Parkhurst this evening issued a statement concerning his position in the present campaign in this city. The statement is substantially as follows:

In taking the measure of the situation nothing will be gained by slurring over the deplorable features, and also nothing will make us insensible to these opportunities and duties of the hour which are just as urgent as though no faults had been committed or mistakes made.

Speaking now in the order of the two points as just presented I want to say first, that with the outcome of the efforts that have been made at fusion I am sadly disappointed. Excellent, surprisingly excellent as the fusion ticket is in certain portions of its personnel no one who has been for any considerable time a resident in this city can examine the ticket without instantly discovering that the influences largely operative in its construction were distinctly indifferent to, not to say antagonistic to, all that makes for the best interests of the city as generally interpreted. It would probably be impossible to find any twelve men who, sitting down together to study the matter of candidacy and having no purpose other than to promote, in the largest way the city's welfare would prepare a slate that would to any large degree resemble the fusion slate, either in its individual makeup or in the type of character represented upon it.

The preponderant element of our citizens desire to be governed by men who are certified to by the strength and dignity of their own record. The issue is another proof of the fact, already numerous times illustrated that the whole effect of partisan politics in municipal matters is to lower the tone of administration and in that way strike at the root of all these interests, economic, educational, moral and religious which is the proper function of the municipality to foster and subserve. Personally I prize the present situation as an eloquent object lesson of the debasing effect of having the city's interests safeguarded by men who whether as republicans or as democrats look upon positions of municipal trusts only as legitimate game with which to stock the political ladder. I do not like to seem presumptuous, but I venture to think we should be in better plight today if after having discovered the dickerings propensities of the partisan conferees the sub-committees stood up in self-respect and said: "Gentlemen—There is no wisdom in our debating these matters unless we can meet one another on a broad and generous platform and consult together with an eye that is single to the exigencies of this city. Some of you are purchasable by a judgeship, some of you by a city clerkship, some estimate your tender edvotion to this city in terms of Sunday beer. We are not in the dickerings business, gentlemen. Our preference is to deal with men who do not want to go around tagged with a cost mark. You must excuse us from further attempts at mediocrity into which we may have been thrown by the unusual then be distinctly seen to rest squarely upon the shoulders of the politicians, and so would have been a stinging blow to the whole breed of small manipulators. While it is perfectly clear that nothing of the above can be justly omitted from a fair statement of the case it is equally clear that whatever there may be in the situation we are not there by absolved from the obligation resting upon us to gather ourselves up from any perplexity into which we may have been thrown by the unusual to remember that altered contingencies have not modified the essential elements in the case and that whatever other enemies there may be that will be required to be knocked down when their turn comes it is neither robust citizenship nor good strategy to concentrate this year upon any other enemy than the one well combined to paralyze last year, viz. Tammany Hall. Facing this as it would be to get all the birds of prey on one branch and aim at general effects yet blunderbuss fighting is a mode of musketry that is neither the most economical nor the most effective. One enemy killed is better than half a dozen scotched. There is no abatement in either the cheerfulness or the heartiness with which I am prepared to camp on the trail of the striped beast.

Though I repudiate a portion of the fusion platform and though I shall not neglect to scratch one or more names on the fusion ticket, yet the fact is no scabbard into which I shall thrust my sword that is already red with the tiger's blood. I may and I do resent the process with which even the best of that ticket was put forward, but because object to the machinery that brings about a man's candidacy is no rational ground for my resisting his candidacy, provided always the man is his own master and is pedestaled upon a transparent good record of his own producing. Whatever criticism may be passed upon my position as above stated, it is one, I think, upon which sincere citizens can strive for victory without being ashamed and suffer defeat without being disconcerted."

Symphony Orchestra.
The New Haven Symphony orchestra will give four concerts this coming season, the expenses guaranteed by the Yale authorities, \$1,000, has been set aside for the purpose. The concerts will be given in Alumni hall afterwards.

SPANISH SENSATION OVER CUBA.

Report of a United States Demand Said to
Have Struck Up Madrid.

London, Eng., Oct. 11.—A dispatch from Madrid says: "It is stated here upon good authority that the United States government has pointed out to the Spanish minister at Washington the necessity that Spain should take prompt action to crush the rebellion in Cuba. This statement has created a sensation in political circles."

The Vienna Tageblatt prints in interview with the Spanish ambassador in which that gentleman is represented as saying that the complete subjection of the Cuban rebels is certain. If Cuba should ever achieve independence, he adds, the government of the United States would not wish to annex the island for fear of increasing the number of her negro citizens.

The Madrid Imparcial's Havana dispatch says that the Spanish column, under Colonel Sousa, has had an encounter with a band of rebels in the district of Manacas, killing six and wounding a large number. The Spanish had one killed and two wounded.

Saved from the Cristobal Colon.

Havana, Cuba, Oct. 11.—The Spanish cruiser Infanta Isabel returned to Havana to-day from the scene of the wreck of the cruiser Cristobal Colon, with Admiral Gomez, second in command of the Spanish fleet, on board. She also brought part of the crew of the Cristobal Colon, together with the money chest, two light guns, four torpedoes and a quantity of sundries which had belonged to the wrecked ship. This comprises all of the property that has thus far been saved.

The cruiser Conde de Venadito and the tug Maria Cristina remain at the wreck.

YALE NOTES OF INTEREST.

Yale Wins the Tennis Championship and
Chase Can Wear a "Y"—Scott German
Prize—Sheff Junior Class Officers Elected—
Other Items.

The final matches in the doubles of the Intercollegiate tennis tournament were played off yesterday forenoon at the New Haven Law club grounds. The first match was between Chase and Foote of Yale and Wrenn and Read of Harvard. The former team won after four sets had been played. The score was 2-6, 6-1, 6-3, 6-1.

The final round for the consolation prize was won by R. V. Wilson of the University of Pennsylvania, who defeated A. E. McVitty of Princeton by a score of 6-4, 7-5. In the afternoon the finals of the singles were played between Chase and Foote, both of Yale. This match was especially interesting from the fact that the winner would have the honor of wearing the big white "Y" on his sweater by reason of his being champion of the Intercollegiate tournament. Chase won the match in three straight sets by the score 6-0, 6-1, 6-2.

A match for second place in the doubles was played between Wrenn and Read of Harvard and Ware and Scudder, also of Harvard. The latter team won by 6-4, 6-4. Foote will play Whitman this morning at 3:30 for second place in the singles.

Plans are being made for opening the reference room of the university library in the evening. It is thought best, however, to equip the room with electric lights before opening it in the evening. This will probably be done in the course of a few weeks.

The following officers of the Sheffield Junior class have been elected: President, E. H. Brewster; vice president, C. H. Flint; secretary and treasurer, E. W. Clinton.

The following have entered the university chess tournament: W. M. Murdoch '98 S., F. S. Chapman '96 S., Stuart Holt '99, L. Arnstein '96, Stewart Gilman '99, Henry A. Perkins '96, D. B. McCallum '97 S., Martin Kennedy '97 S., Arthur Bisset '97, E. F. Dayton '96.

The university football squad were photographed at the Field Thursday afternoon for the New York World. Several individual pictures were also taken.

THE BODY IDENTIFIED.

William Vetterman's Body Found in the
Orange Woods—He Had Been Missing
Since February 17, Last—Funeral to be
Held To-morrow.

The body which was found in the woods of Orange Thursday by J. J. Merwin and Arthur Trent of this city was identified yesterday as that of William Vetterman, who had lived at 49 Button street and who had been missing since February 17 last. On the hat found near the body was a mourning band, which Mr. Vetterman wore in memory of his wife, who died in 1893, and which was one of the marks by which the body was identified by Mr. Vetterman's son Paul, who lives at 528 Congress avenue and works at the clock factory. Medical Examiner Barnett, Undertaker Stahl, Paul Vetterman and Mr. Merwin, who found the body, went out yesterday to get the remains, which were taken to Stahl & Hegel's morgue.

The funeral will take place from the residence of Paul Vetterman, son of the deceased, at 528 Congress avenue, at 2:30 p. m. to-morrow. The interment will be in Evergreen cemetery.

Another Raise in Coal.

Philadelphia, Oct. 11.—Anthracite coal prices, which were raised a day or two ago, were again raised to-day for two sizes. Broken was elevated from \$3.25 to \$3.50 per ton and chestnut from \$3.40 to \$3.60. A leading operator says: "Broken and nut were lower than they should have been, but so far as the supply is concerned they may as well have been advanced \$5 a ton. They are not to be had—not a pound. The drought is at the bottom of it." The new prices will go into effect next week.

\$125,000 OF SCHOOL BONDS

THE ISSUE ORDERED AT BOARD OF
EDUCATION MEETING.

Ballot Box Stuffing at the High School Alleged—An Investigation to be Made Monday Night—Anthony Carroll Appeared Before the Board—Schools to be Closed Next Friday—Finance Committee's Report—Other School Matters.

It was expected that at the meeting of the board of education last evening the matter of the alleged ballot box stuffing and other irregularities in the election of senior class officers at Hillhouse High school would be investigated, and several members of the senior class were present to give evidence. The matter was, however, referred to the committee on special instruction. The names of those boys who were present were taken and they were requested to meet the committee at a special meeting to be held at the board rooms at 8 o'clock next Monday evening. The boys present were Alexander Troup, Jr., Leopold Spier, Charles Bouton, F. Conlon, H. Bill and A. Koocher, representing the non-society men, and R. Kearney and J. McIntyre, representing the Gamma Delta Psi society.

Much amusement was created by Mr. Kearney asking if there would not be an equal number of representatives on each side, but he was appeased when Mr. Moran remarked that the affair was not a football game, so equal representation was not exactly necessary. The boys were dismissed before the regular session began.

After the board had been called to order a communication was presented by Anthony Carroll asking what were the duties of the city superintendent of schools, Secretary Day, Clerk Hewlett and other officials connected with the schools, and also what were the qualifications necessary for a night school teacher. Mr. Carroll was present in person to explain his questions, and said that he would like particularly to know if it were not possible to appoint more young men, who are residents of New Haven, as night school teachers, as he thought that at present too many non-residents were appointed to those positions. The question was referred to Mr. Manson, chairman of the committee on special instruction, who informed Mr. Carroll that the matter of the selection of the night school teachers was left to a great extent with Superintendent Kendall, who examined carefully the qualifications of applicants and appointed only those who seemed most capable, whether they were residents or not.

Mr. Betts of the same committee stated to Mr. Carroll that many of the night school teachers were employed in schools where a knowledge of foreign languages was necessary and few have the necessary knowledge of these languages together with the other necessary qualifications. A copy of the city school book, containing the other requested information, was presented to Mr. Carroll and he departed after thanking the board for attention to his questions.

The special instruction committee recommended the appointment of Miss Florence Pardee as substitute teacher in the kindergarten department at a salary of \$300 per annum, the appointment to date from September 19, 1895; also an appropriation of \$175 for apparatus and supplies for the physical laboratory of Hillhouse High school and an appropriation of \$195 for the chemical laboratory of the same school. The recommendations were accepted and adopted.

The committee on schools made the following recommendations: That Miss Lottie Treat be assigned as extra teacher in the Welch district; that Miss May Atwater's leave of absence from Lovell school be extended to November 1; that the salary of Miss Edith Todd of Dwight school be fixed at \$500 per annum; that the salary of Miss Martha Quinn of Welch school be fixed at \$600 per annum; that the salary of Miss M. Catherine Condon of Welch school be fixed at \$490 per annum; that the salary of Miss M. Louise Turner of Welch school be increased from \$545 to \$600 per annum to date from September 3, 1895, this increase of salary being again made necessary from the fact that Miss Turner is teaching in grade 5a instead of grade 5; and also that the city schools be closed Friday, October 18, on account of the State Teachers' association meeting, and that all teachers who attend this meeting be allowed salary for the day. The committee also reported the resignation of Miss Hattie E. Cooper as teacher in Winchester school district, the resignation to take effect October 28, and recommended its acceptance. The report was accepted and adopted.

The finance committee recommended that a bond issue of \$125,000 be ordered, this being the amount remaining from the bond issue of \$500,000 authorized by the New Haven school district by the legislature of 1889. The committee also recommended that these bonds be each of the denomination of \$1,000 4 per cent., that the series be styled forty series, that they run thirty-six years, and that \$20,000 worth of them be redeemable. If desired by the board, on November 1, 1925, and \$20,000 each year thereafter on the same date until the entire issue is redeemed, the selection for redemption to be by lot under the direction of the board of education. The board accepted the report and voted that the finance committee be ordered to prepare, advertise and sell the bonds to the amount of \$125,000, par value.

The finance committee also reported the following condition of school finances for the month of September 1 to October 1: Receipts of old balance, \$112,253.19, expenditures \$96,294.74, whole permanent improvements expenditures \$22,460.51, balance available for permanent improvements \$41,547.95, ordinary expenditures \$37,854.23, balance available for ordinary expenditures \$11,936.76.

Messrs. Moran and Asher were appointed to represent the city school district on the tax abating committee. There was some discussion as to whether the schools should be closed on October 15, Lincoln day, but it was finally agreed that they should not be. It was voted that arrangements for the observance of the day in the schools be left to Superintendent Kendall. It was also voted to hold board meetings hereafter at 8 o'clock p. m. on the second and fourth Fridays of each month.

Superintendent Kendall reported on the matter of the state paying the teachers of Welch and Dwight schools in the manner before proposed. Mr. Kendall stated that the teachers would make no objection to the method of pay city and state salaries in one sum, if the salaries were paid in ten payments during the year and not in twelve as they had heard the state superintendent proposed doing.

CONDITION OF TRADE.

Bradstreet Reports That the Prospects
Are in Excellent Form.

New York, Oct. 11.—Bradstreet this week says: Cooler weather has stimulated a seasonable demand for staple dry goods, millinery and clothing and jobbers in these lines in all parts of the country feel the improvement. Relatively most gain has been made at the south, where an improvement has been noted in almost all lines. Interior merchants are placing more liberal orders than for several years and larger distributing centres report sales of goods to the cotton belt and collections therefrom exceptionally free.

PUBLIC WHARF FAVORED

HARBOR COMMISSIONERS ADVOCATE THE PLAN LAST NIGHT.

Want It Located at Water Street Park—
Important Meeting of Park Commissioners Last Night—Improvements Made in the Several Local Parks.

The meeting of the park commission in the mayor's office last evening was one of the most important of the year and considerable business was transacted. A proposition for the establishment of a public wharf at the foot of Water street park was presented and strongly advocated by Harbor Commissioners F. C. Bushnell and G. B. Martin.

The commissioners had with them a map of the locality, which they spread out before the park commissioners and demonstrated from it their plan for a wharf. The plan is to have the wharf located at the southeastern part of the park, which would be easily accessible by means of a driveway extending around the park. The commissioners argued that the establishment of a public wharf would not only afford facilities for the landing of steamers and other large vessels, but that it would prove an addition to the park itself and be of incalculable value in advancing the commercial interests of the city.

After discussing the proposition at considerable length it was voted to refer it to the special committee on the Water street park with instructions to the committee to inquire and report to a future meeting of the park commission.

Interesting reports from the committees on the several parks of the city were presented. A vast deal of work has been done on the parks under the supervision of the commission and at no time since they have been established have they been in as fine a condition as at the present time. On the new Quinipiac drive over 2,000 feet of roadway has been completed, and the drive is now one of the best in the city's park system. Although the work is not yet completed, work will soon have to be suspended, as the appropriation is nearly exhausted.

On the new summit drive at West Rock park 1,000 feet have been completed to the cliff and will be opened early next season. At Bay View park all the unsightly houses have been removed and the Malone house has already been removed, thus opening up a fine view down the park and off to the water.

NEW QUINIPAC DRAWBRIDGE.

The joint committee on bridges of the city and town held a meeting in the city hall last evening and discussed the plans for the new drawbridge ordered by the United States government to be erected across the Quinipiac river at Grand avenue. The town was represented by Selectmen Stahl, Ludington and Forbes, and the city by Commissioners Johnson, Bishop and City Engineer Kelly.

The plans of the new bridge, which must be completed and opened to traffic by December 31, 1896, were informally discussed and finally the city engineer was authorized to secure assistance, should he so desire, in preparing the plans and specifications for the new bridge. These plans must be submitted to and approved by the authorities at Washington before the work of construction can be commenced.

DUTIES OF CITIZENS.

Cannot Organize in the Defense of Cuba's
Liberty.

Washington, Oct. 11.—Inquiries by mail and telegraph have been received in considerable number of late at the department of justice as to whether it is a violation of the laws of the United States for American citizens to express sympathy for the Cuban insurgents in public meetings, and to aid in fitting expeditions to help them. One of the most recent is from Mr. Watkins of Albany, N. Y. In reply to it Attorney General Harmon has sent the following letter, which represents the views of the administration on the subject:

"Sir: For some reason your letter of September 25 did not reach me until today. I hasten to say in reply that the organization of a military force of any sort in the United States in aid of the insurgents in Cuba would be in direct violation of section 5,826 of the revised statutes, which provides for a fine not exceeding \$3,000 and imprisonment for not more than three years for every person who in any way takes part in such expedition or enterprise to be carried on from there against any prince, state, etc.

As the United States are not only at peace with Spain, but have with a treaty whereby the extradition of prisoners and many other benefits are secured, it behooves all Americans who have respect for the laws and obligations of their country and regard for its honor to observe this law in spirit as well as in letter, to be neutral in word as well as in deed. While there is no law to prevent American citizens from speaking their sentiments on any subject singly or together, taking such action as you mention in your letter would not in my judgment be disconcerting in the slightest degree to a friendly power and tend to embarrass and obstruct the government in carrying out its determination faithfully to execute the laws and fulfill its treaty obligations."

Settled the Race.

Lexington, Oct. 11.—Oppella, who won two heats in the 2:16 pace, last evening stepped out to-day and settled the race in one heat by going a mile in 2:11½. Heirloom earned second money, Bessie B. third and Disburg fourth. The new additions to the 2:19 list developed before the 2:11 pace was concluded and Ella T.'s advent into the circle makes four for her sire, Altamont, this season.

SILVER WEDDING.

Mr. and Mrs. John Rowan Surprised on the
Twenty-fifth Anniversary of Their Wed-
ding by Many of Their Friends and Pre-
sented With a Suitable Token of Their
Esteem.

Mr. and Mrs. John Rowan of 30 Gill street were agreeably surprised by a large number of their friends last night, the occasion being the celebration of the twenty-fifth year of their married life. Mr. and Mrs. Rowan are well known in the city, Mr. Rowan having been for the last fifteen years head salesman for R. Veitch & Son, the florists, on Chapel street. He is also a popular and enthusiastic member of Clan McLeod, No. 31, Order of Scottish clans, and many of his brother clansmen were present to congratulate him on such an auspicious occasion. Chief John C. Morton of the clan made a congratulatory address at the conclusion of which he presented to Mr. and Mrs. Rowan, on behalf of the clansmen and several of their friends, with a tangible token of their respect and esteem in the shape of twenty-five pieces of silver, remarking at the same time that he hoped they would be able to meet again twenty-five years hence, and take part in their golden anniversary. Mr. Rowan feelingly replied. The remainder of the evening was pleasantly passed with songs and sentiment. Among those present were Mr. and Mrs. Robert MacArthur, Mr. and Mrs. J. W. L. Andrew, Mr. and Mrs. John Macaulichin, Mr. and Mrs. George D. Bone, Mr. and Mrs. Duncan McKenzie, Mr. and Mrs. John Brown, Mr. and Mrs. William Davidson, Mr. and Mrs. F. Stevenson, Mr. and Mrs. John Davidson, Mr. and Mrs. W. C. Macintosh, Mr. and Mrs. George N. Andrew, Mr. and Mrs. James Mustarde, Mrs. Stewart, Mrs. Maclellan, Miss Maggie Dingwell, Miss Mabel Hough, Miss Blana Common, Miss Davidson, Miss J. Davidson, Miss A. Bone, Misses Lizzie, Jessie and Jennie Rowan and Miss Jessie Macaulichin, Chief John C. Morton, John Rowan, Jr., James Macaulichin, James Rowan and others.

NORTH HAVEN.

Oct. 11.—A gold stick-pin, with a cat's eye head pendant, was lost, it is thought, between the corner near Dr. Goodyear's and the railroad station. The finder will do a favor by leaving it with the town clerk.

Mr. and Mrs. Isaac L. Mansfield visited the Danbury fair on Thursday.

A large number of the North Haven patrons attended the Pomona meeting in Wallingford on Thursday and found the exercises very enjoyable and the dinner all that could be desired by a hungry man, and there were many such, for a drive in such air as that on Thursday will give one an appetite. There was much business done, interesting only to grange members. It was voted to hold the next meeting in Milford and the annual meeting in December in North Haven.

At the recent election Town Clerk Tuttle, who ran on both tickets, didn't have a scratch.

People of Montewese are rejoicing over the prospect of the electric cars being ready to come to Montewese in three weeks. A large gang of men are now at work laying the ties and the rails.

James Munson is going to reside in the old Munson place recently owned by Miss E. A. Lindsey.

All those men who were voted for on both tickets at the recent town election are reminded that they must make a sworn and certified return to the town clerk of how much money they contributed to the election expense, and if they didn't spend anything they must make a return just the same. The fine for not doing so within ten days is not over \$1,000.

St. John's church has thirty-two new Rochester lamps in position to be used the first time on Sunday evening, October 13.

The Village Improvement society of Montewese has purchased six street lamps of improved pattern to be located about the village.

The Center V. I. A. held the regular meeting in the court room on Thursday evening. Mrs. Hobart Bassett reported about \$40 collected for the lamps. Probably they will now be lighted a short time longer.

E. C. Warner of North Haven read a good paper on fruits at the Pomona grange in Wallingford.

Frank Squires has a new driving horse sold to be pretty fast. He sold his old horse.

Mrs. F. L. Smith, who has spent the summer in the Adirondacks, seems to have improved in health and was cordially welcomed at the Pomona grange in Wallingford.

Miss Mary Thorpe, who has spent the past week with her sister Carrie in Wallingford, returned with her brother Charles, who attended the Pomona grange in Wallingford.

St. John's church daughters of the King met with Mrs. Will Leele on Thursday evening.

Thousands Are on Strike.

Belfast, Oct. 11.—Three thousand engineers and their assistants in the ship-building yards here went on strike to-day, their employees refusing to concede their demand for higher wages. The other employees remain at work for the present. The moulders have given notice that they will strike on the 18th, unless their wages are raised. The Clyde shipbuilders, who, it was stated, would co-operate with the Belfast men, are working yet.

Olney Will Not Talk.

Washington, Oct. 11.—Secretary Olney, although several times questioned about the matter, declined to-day to discuss the report that the administration has notified Minister de Lome that there is a necessity that Spain should act promptly in her efforts to crush the insurrection in Cuba.

Feeling Grows Strong.

There is Great Opposition to
THE CORBETT FIGHT.

Even Government Ground Cannot be Used
for the Purpose—Secretary Smith Says
That He Will Issue No Permit for It—
Opposition in Other Places.

Hot Springs, Ark., Oct. 11.—Judge Duffie called the sheriff before him to-day and informed him that it was his duty to take proper measures to prevent the Corbett-Fitzsimmons contest. When the sheriff asked when and just how he should proceed the judge failed to instruct him, saying he would confer with the prosecuting attorney and advise later. This talk of Judge Duffie seems to have had no perceptible effect on the people most interested and no importance is attached to it. There is no apprehension locally that anything radical will be done. It is argued that no arrests can be made before an offense against the law is committed and the sheriff and his deputies will be present to look after the law.

Washington, Oct. 11.—If any attempt is made to occupy any government lands for the Corbett-Fitzsimmons fight Secretary Smith instructs the government authorities at Hot Springs to prevent the fight. The secretary said to-day he would grant no permit for the fight and if any lesses of government land granted permission to the managers of the fight to have it take place on his land his lease would be speedily revoked. The Indian bureau received a telegram to-day from Chief Perryman of the Creek Nation asking permission to have boxing and other athletic sports in the nation. Indian bureau officials are puzzled about the telegram, owing to the recent events in that country and to the fact that the Indian bureau has certain the request of Chief Perryman was in the interest of the Corbett-Fitzsimmons management and under instructions from the department he had taken steps to prevent the fight on any of the lands of the five civilized tribes.

San Antonio, Oct. 11.—Private advices received here from Austin this afternoon stated that the Travis county grand jury would return an indictment against Corbett and Fitzsimmons. Immediately upon receiving this Mr. Brady decided to get Corbett out of the state as soon as possible, so as to place him out of the reach of the Texas authorities. Brady left to-night for Hot Springs, where he will ascertain whether or not the fight can be pulled off there, and if he finds that it can he will secure training quarters for the champion and the entire party will be removed to the new grounds.

Corbett was very despondent over the outlook to-day. The unlooked for opposition of Governor Clark makes it very doubtful whether the fight can be pulled off at Hot Springs. The champion this evening said:

"Fitzsimmons is preparing to get out of the state to evade the possibility of arrest, and I don't want to remain here and be placed in the clutches of the law while he goes free. I am tired of this persistent persecution on the part of Governor Culberson, and it is probable that I will remove to Hot Springs within the next few days."

Steve O'Donnell, who is matched to fight Peter Maher, is confined to his bed with sickness, which is not serious, however.

A FOOLISH PAMPHLET.

Comments of the London Telegraph on
Lord Sackville.

London, Oct. 11.—The Telegraph in an article commenting upon Lord Sackville's issuance of the pamphlet in which he makes an attack upon United States Ambassador Bayard says:

"A very foolish, ill-mannered, ill-timed and ill-made pamphlet has been issued by Lord Sackville with the purpose of injuring the reputation of Mr. Bayard, now the United States ambassador, charging him with being a political trickster and a consistent and determined enemy of England. The whole thing is so full of thoughtless bitterness that it is not worth while to reproduce any part of the brochure. We only hope that common sense and judgment of the English and American public will treat this attack with contemptuous disdain. Those concerned with diplomatic history will be the first to assure Mr. Bayard that no effect is likely to be produced by such a series of charges, so utterly unworthy of attention or consideration."

During his sojourn Mr. Bayard has earned golden opinion for his urbanity and keen judgment and, above all, has made studious efforts to cultivate amicable feeling between England and America. Through him the English are learning a fuller appreciation of and a higher admiration for the great republic.

The Brick Bounded Off.

Henry McNulty of 23 Ward street, fireman on the Bay State express, was badly injured a week ago by a brick which was thrown by a boy as his train was entering the tunnel leading to the Grand Central depot in New York. It struck his cheek, and then fell to his collar bone. The brick broke in half, one part of which he has a memento, and his collar bone was so badly bruised that he was not able to work for several days. He is now on duty.

Companion of the Bath.

London, Oct. 11.—Slatin Pasha, who escaped last winter from Omdurman, where he was for years a prisoner, has been gazetted a Companion of the Bath.

Mr. Trowbridge Chosen.

At a meeting of the New Haven Water company held Thursday Mr. E. Hayes Trowbridge was elected a director of the company, vice the late Bill Whitney, deceased.
